## Introduction...

The preschool years are crucial to a child's overall development. Children are constantly learning and absorbing information. Because learning takes place in every experience and situation, New Friends Nursery School provides rich, meaningful learning experiences that enhance each child's intellectual, physical, emotional and spiritual growth.

We strive to provide a loving and caring environment where children can play and learn through a combination of structured and unstructured activities.

We offer music and library programs to all of our students.

- All children must be toilet trained (this includes no "pull-ups").
- We enroll throughout the school year if space is available.

## Classes...
